# OH AKUNE CYCLE TRACKS

**THE OLD COACH ROAD TRACK**  
 The official start to this track is at the Ohakune railway station. From there, head down Thames street past the Powderhorn and over the bridge on to old station road. Take your next Right into Marshals road (this is a gravel road). Follow Marshals road for 5 minutes until you reach the car park on the right. Just beyond the car park here is a small bridge crossing the stream to your right and that's where the trail really gets going! Check out the stunning views, enter the deep dark train tunnel and walk or bike across the Hapuawhena Viaduct. 2 1/2 hours return.

**MANGAWHERO RIVER TRACK**  
 The start to this track is on the corner of Ayr street and Tohunga road. Look for the car park with picnic table, right beside the stream. This track follows the stream up to where it comes out at the end of the Mangawhero Terrace extension. Follow the road around the corner until you spot the swing bridge on your left. The swing bridge is the entrance to the second part of the walk. Once across the bridge turn right and enjoy the walk beside the stream up to the Junction end of Ohakune.

**THE DOWNTOWN OH AKUNE TRACK**  
 This is a 5-30 minute track depending on where you start and finish. You can start this track from three different points. Firstly, from Burns street just after the bridge on the left. If you enter from here keep an eye out for the river beach on the left. Secondly, from downtown Ohakune besides the Information Centre and over the walk bridge. You can go either left or right from there. Or last but not least from the Big Carrot, where you follow the grass area behind the carrot until it turns into the track. You can take a left turn from where the track starts to head to the BMX track. When coming from the carrot you exit this track and cross the Raetihi Ohakune road. To re enter from this direction take the driveway to the left of the swimming pool, this will lead you back to the skate park and walk bridge.

**CYCLE THE OH AKUNE MOUNTAIN ROAD**  
 17 kms downhill, it takes 20 mins, a 1000 metre descent (3200 feet) downhill ride, featuring spectacular scenery, native bush - A high speed adventure experience. Contact TCB for arranging transport to the top of the mountain. Phone (06) 3858 433.

# RANGATAUA CYCLE TRACKS

**IMPORTANT INFORMATION**  
 If you are planning to drive up Rangataua road a high wheel-based four wheel drive is recommended as it is gravel/mud from top to bottom. The top section is rough to drive but great to ride down! If you are riding out from Ohakune/Rangataua there are two streams along the access road running next to the railway tracks. The first stream at the Rangataua end is shallow and easy to cross. The second stream before the bottom of middle track can be up to waist deep so we advise you to have transportation to and from Rangataua forest unless you want to get wet!

**MIDDLE TRACK**  
 For beginner to advanced riders and will take between 45 minutes - 1.5 hours. This track is recommended after a dry spell as sections can get boggy! Another great track with variable terrain, but prepare to get muddy!  
 We recommend biking from the top of the trail off Rangataua road for a winding downhill trail which opens out overlooking near by farmland. At the bottom of the track continue left and follow the road beside the railway tracks back to the bottom of Rangataua road.

**EAST TRACK**  
 For an intermediate to advanced rider and will take 10 minutes - 35 minutes. This track is overgrown currently but makes for a good technical downhill ride. Don't even think about trying to ride up it, downhill all the way!  
 This is the first track off Rangataua road on the left. It starts out as an easy ride and gets denser as you head down the track. At the bottom of the track continue left and follow the road beside the railway tracks back to the bottom of Rangataua rd.

**WEST TRACK**  
 This is an intermediate to advanced track and will take between 45 minutes to 1.5 hours. This track is for mid summer riding only as it gets extremely boggy! This has variable terrain, prepare to get muddy with this one!!  
 To get to the top of the track take a left after the second bridge on Rangataua road.  
 The start of the track is at the end of that road. At the bottom of the track continue right and follow the road beside the railway tracks back to Rangataua township.

Fork in the road here, You will see a camping ground if you haven't taken the right turn

**BMX TRACK**
